Say goodbye to the hassle of carrying around storage disks, removable memory, or emailing important files to yourself! Online File Folder gives you secure, 24/7 access to your most important files from any computer with an Internet connection — just log in to retrieve, store or share everything from business reports to personal videos. Whether you're at home, in the office or on the road, Online File Folder is your easy and affordable file management solution.

Online File Folder Features:

* Easy to use. - Access, share, and manage files and folders quickly and easily.

* Backup, retrieve, and share your files anytime, from any computer that has an Internet connection.

* NEW! Make sure you always have the right version of your files. The improved Sync Tool lets you automatically sync your computers—at home, work, school or wherever—every day, week or month.

* NEW! Upload your favorite images to your Online File Folder account and order professional-quality prints. With our Photo Store feature, they’re delivered straight to your door.

* NEW! Upload and download files to/from your Online File Folder account via FTP. It's as easy as sending files to onlinefilefolder.com and logging in.

* NEW! Editing Tool lets you edit your files from Online File Folder. Save the edited file and the changes are automatically saved in your Online File Folder.

* NEW! Download and save multiple files at once.

* Access online files right from your desktop. With new WebDAV support, including Microsoft’s Web Folders technology, you can view or edit your online files and folders as easily as if they were located on a local network drive.

* Transfer files in a snap with our new Drag & Drop feature! Organizing your files has never been easier.

* Bypass ISP restrictions on email attachment size. Just email a link to the file you want to share — no more bounced emails or clogged inboxes.

* Compress and expand even the largest files with a simple click to get the most of your storage space.

* Affordable. Just pennies a day give you a user-friendly interface, ample storage space and instant access to your files.

* Powerful encryption keeps your personal files safe and secure, protecting them against hackers and other online threats.
